10. My child likes school.  
Yes 109 (92%) No 8 (7%) NA 1 (1%) (118 Respondents)

- 
1. I would like for my child to be more involved in sports.
  2. I think Mrs. Wehba is a great teacher, although we think early head start and pre - kindergarten should be able to go to school all day.
  3. I have noticed that my child enjoys going to school now. She is now more involved and she seems to be learning a lot more things than what she was in her other school.
  4. I believe that when a child does well in school, like A or B honor roll, all students should be recognized not only one. My child was not recognized a few times, at school or in the paper.
  5. I thank all of the staff for helping my child in his needs and that you all are concerned in his needs to improve.
  6. Every child has the opportunity to get a free breakfast, but it is ridiculous that they have to be there by 7:20 to get it. Other schools I know, the kids get to school and then all go to breakfast as a class. Our kids are in "school" long enough, couldn't there be a way to set aside 20minutes for every child to be able to eat breakfast?
  7. Sometimes I feel like the homework load is too much, since they are in school so long.
  8. I absolutely love the phone message system. It is so convenient and informative. Also, the frequent parent newsletter has been very informative and appreciated. Thank you Mr. Wilson!
  9. Thanks for all that ya'll do!

10. Mrs. Cathy and Mrs. Santiago are GREAT!
11. I would always like to know when my child attention is called.
12. Mrs. Young is a good teacher, she's always extra cautious about [REDACTED]'s well being, we do appreciate that very much. Thank you.
13. Sometimes I think homework is a little much with the amount of time they already spend in school.
14. Thank you very much.
15. I think my child needs more help with math.
16. Our child had ADHD. With that said, we think that he is always being singled out as a troublemaker. We understand his problem, but sometimes he isn't the only one that causes disruptions in class. There are more than one student that we know is a troublemaker, they are also ADHD. They are not on medication. Oh yeah, it's a school, not a military boot camp. Teachers may need to learn patience.
17. I would like for the children to participate in sports at school.
18. I am very satisfied with all of you esteemed teachers from the school. You show my child right in words/speaking things she did not know. Thank you!
19. I appreciate Mrs. Wehba's efforts to make a report card for PK-3 year olds. It lets me know where my child needs extra practice. She and Mrs. Chavez do a great job and you can tell because the children are attentive and learning. They need a raise for all they do.
