The Principal Message

The Spring Book Fair is a Success! We have not yet reached our total sales from the Fall, but we are certainly well on our way. Let me say thank you to all of you who have come so far. If you haven't come yet, be sure to pop in tomorrow so you can stock up on books for summer reading. Come eat with your student for FREE tomorrow!

Parent survey results are in: Thanks again for participating in the parent survey a few weeks ago. We had over 85% parent participation. That is an incredible response! I have included the results on the back of this newsletter. The print is rather small in order to fit it all onto one page. If you would like to see it in larger print, you can find it via the Parent Information link on the elementary web site.

Did your students come home Monday talking about robots? Monday we had our Robotics Assembly in honor of the RCHS Robotics Team. KTAB was there to film the whole thing. I hope that it inspired your students to reach their highest potential. I am very proud of the many opportunities that our students have here at Roscoe ISD. This is a truly unique place. If you would like to see the newscast of the assembly, type the following URL address into your web browser: http://bigcountryhomepage.com/fulltext/?nxd_id=236305

What about magic? If your students didn't talk about the robots on Monday, I'm sure that they were talking about the magic of Harlin Rhoades on Friday! What a show! Mr. Rhoades was very motivational and really connected well with your students. His message to the students was about the importance of reading. Your students listened well and laughed loudly, and all at the appropriate times. They were a class act throughout the entire presentation.

The 5th Six Weeks Awards Assembly is tomorrow. Be sure to come out and see your student be recognized for attendance, grades, reading, and good citizenship. You can also shop at the book fair afterwards!

Deputy Angie Collier and the D.A.R.E. program are back on campus. Each year, Deputy Collier spends a few days with our PK-4th grade students. She has been here this week teaching about making healthy decisions. Please take a few moments to ask your students about what they have learned during their time with her this week.

Debbie Anthony will be here Friday to visit with our first grade students. Mrs. Anthony works for First Financial Bank, and she will be teaching first graders about the importance of saving Money.

April 24 is a big day! As many of you know, Braiden Moore (5th grade) is a survivor of adolescent heart disease. He is a poster child for the Nolan County chapter of the American Heart Association. They will be having a 5K run on the morning of April 24th and a heart walk to follow the run. For more details, call the school office or Misty Guelker.
